Had good help with mowing. Did

100-yard tear down on Black Powder backstop. Erosion is tearing up the backstops. Got 25 curb stops from Ozinga for the black powder line. Doing clean up from storm a couple weeks ago. There was a lot of drainage issues on the ranges. This disrupted a lot of the sand berms. These will have to be rebuilt. Tree stump removal is also starting for the trees that were removed.

Committee Updates

- Long Term Planning / Capital Improvements – Have not met.
- Financial Oversight Committee – All Looks good.
- By-Laws – Have not met, still need a vote.

Unfinished Business

- Club Sponsored Illinois Carry Class moved to July 25th and 26th? Approved.
- The 4H shoot has been canceled.
- June 14th Range Orientation.

New Business

- Committee to form to teach classes to non-members for beginner shooters.
 - Provide a service for our community in a much-needed time.
 - Lots of new shooters out there.
- Black Powder
 - Old 200m backstop – steel being shot still on that range. Was removed.
 - Nov 2019 Board meeting minutes: Steel Targets on rifle range – Steel targets must be placed within a foot of the bullet traps. This will reduce the likelihood of bullets leaving the back range. Black Powder Cartridge will need to make adjustments for their matches out back. The 150/200-yard range on Black Powder is a concern since it doesn't have any ridge or bullet trap. This will be looked at with Wally Marshall and Don Rotzoll.
 - Adding another Backstop at 140 yds (?). Needs board approval. New distance and new spot.
 - Thoughts:
 - For rifles... longer than 100 yards. Per past board vote – no new rifle ranges without no blue sky.
 - Who is going to be using this range?
 - What Calibers will be used on it?
 - What type of targets?
- Please clean up the restrooms after yourself. Supplies are in the closet. If there is anyone that wants the volunteer time, see Wally Marshall.
- News Letter Articles need to get in
